(4) SPECIAL TESTS—MAY AND NOVEMBER 1977.

The performance of the candidates in a majority of the tests was satisfactory. Mechanical reproduction from the books, lack of adequate preparation, lack of understanding of the spirit of the questions and lack of expression were some of the factors leading to the poor performance of candidates. Despite the provision that candidates can either choose English or Tamil as medium of Examination very few had come forward to answer the papers in Tamil and the performance of even those candidates was not upto the level of English Medium answers. The performance of the candidates who answered the paper on District Office Manual test in Tamil was not up to the level of English Medium answers.

(5) DEPARTMENTAL TESTS—MAY AND NOVEMBER 1977.

While the performance of the candidates in many of the Departmental Tests was generally satisfactory, it was not the case in respect of some of the tests. Copying verbatim from books without answering to the point, lack of understanding of questions, in adequate preparation and poor expression were some of the defects pointed out by the examiners.

(6) SPECIAL QUALIFYING EXAMINATION OF THE DEGREE STANDARD—1977.

The performance of the candidate in English was poor. But in the General Knowledge, it was satisfactory.

(7) SPECIAL QUALIFYING EXAMINATION OF S.S.L.C. STANDARD—1977.

On the whole the general performance of the candidates in English was good and in General Knowledge was satisfactory.

(8) GROUP VI SERVICES—1977.

The performance of the candidates in English, Mathematics (Papers I and II), General Knowledge (Papers I and II) were generally satisfactory, while in the case of the optional subjects the standard was below the expected *standard.*

(9) GROUP V SERVICES—1977.

The General performance of the candidates in General Knowledge was satisfactory whereas their performance in English Composition was not very satisfactory.

(10) GROUP I SERVICE—1977—78,

English Composition.—Very few candidates were able to answer satisfactorily because of lack of comprehension, lack of knowledge of the methodology of precis-writing Most candidates did not reveal either originality in treatment or in subject matter. The candidates were ignorant of idioms and phrases. On the whole, the performance was poor.

General Knowledge, Part-I.—Many candidates answered fairly well. The performance of the candidates in general, was satisfactory.

General Knowledge, Part-II—The performance of the candidates in general, was very poor. The answers lacked precision and betrayed a lack of grasp of the fundamentals.

English—Language and Literature.—The candidates did fairly well in this paper. Some candidates committed awful spelling mistakes and gave irrelevant answers.

English—Shakespeare.—On the whole, the performance of the candidates was average. Many candidates appear to have reproduced essays from 'Guides' or 'Notes'.

History of Language and Chaucer.—On the whole the performance of the candidates was average.

Tamil—Language and Literature.—The performance of the candidates in general, was good.

Tamil—Tamil Nadu and Culture.—On the whole, the performance of the candidates was satisfactory.

Tamil—History of South India.—The performance of the candidates was not up to the mark.

Tamil—Linguistics.—The performance of the candidates was not satisfactory.

Tamil—Literary Criticism.—The performance of the candidates was impressive.

Comparative Philology of Dravidian Languages.—On the whole, the performance of the candidates was not up to the mark. The linguistic training was not adequate for the candidates.

Arabic—Language and Literature and History of Arabs.—The performance of the only candidate appeared, was not satisfactory.

Malqyalam.—The performance of the candidates on the whole, was not very satisfactory.

Telugu.—The performance of the candidates on the whole, was satisfactory. The standard of performance was better than that of the previous year.

Urdu.—The performance of the candidates on the whole, was average.

Kannada.—Out of the two candidates, the performance of a candidate who attempted two papers, was good.

Hindi.—On the whole, the performance of the candidates was good.

Indian History.—The performance of the candidates was not satisfactory. A few had written irrelevant answers.

History of Europe.—The performance in general, was satisfactory But candidates of first class ability were not many.

Constitutional History of England—The performance of the candidates in general, was not satisfactory. Many of the candidates misunderstood the questions and gave wrong answers.

Politics.—On the whole, the performance of the candidates was good.

Economics.—The performance of the candidates in general, was far below average and was not even up to the undergraduate level.

Geology.—The performance of the candidate was good.

Philosophy.—The performance of the candidates was quite satisfactory. Candidates who wrote the paper in Tamil seemed to have better grasp than those who opted for English medium.

Psychology.—The performance of the candidates was uniformly good.

Mathematics (Pure and Applied).—The performance of the candidates in general was satisfactory.

Statistics.—The peformance of the candidates in general, was very poor. The questions were not read carefully by most of the candidates and wrong answers were given.

Physics.—The general performance of the candidates was not satisfactory.

Chemistry.—The performance of the candidates in general was not satisfactory. The standard of the answers of most of the candidates was not up to the post-graduate level.

Botony.—The performance of the candidates in general, was poor.

Zoology.—The general performance of the candidates was satisfactory.

Geography.—In general the performance of the candidates was not bad but was not very satisfactory.

Hindu Law.—The general performance was not up to the mark.

Indian Constitutional Law.—The general performance of th candidates was very poor. Most of the candidates were not aware of the recent changes in the Constitution introduced by the 42nd amendment to the Constitution.

Accounts and Audit.—In general the performance of the candidates was very poor.

Advanced Currency and Banking.—The general performance of the candidates was very good.

Mercantile Law.—The general performance of the candidates was satisfactory.

Sociology.—The performance of the candidates on the whole, was good.

Community Development.—In general, the performance of the candidates was satisfactory.

Co-operation.—The answers of a majority of the candidates were lacking statistical information and were very vague and not up to the mark. In general, the performance of the candidates was satisfactory.

Public Administration.—The general performance of the candidate was only average and was not good as could be expected of them.

Social Sciences.—The performance on the whole was fairly good.

Agriculture.—On the whole, the performance was satisfactory.

Agricultural Chemistry.—The performance of the candidates was good. There was an over all improvement in the performance, compared to the previous year.

Agricultural Batony.—The general performance of the candidates on the whole was average.

Horticulture.—The general performance of the candidates was good.

Micro Biology.—The general performance of the majority of the candidates was fair.

The another Backward Class candidate had failed to secure minimum qualifying marks for selection. No application was received from women candidates for the post of Head of Department in Instrument Technology for which women candidates were alone eligible.

£ Only two candidates were available for selection.

SECTION X—NEW MEASURES TAKEN BY COMMISSION TO ENSURE SECRECY AND EFFICIENCY.

With a view to ensuring maximum secrecy in valuation, the Commission took certain measures. It introduced the system of assigning dummy numbers to the answer books relating to competitive examinations. It also introduced central valuation for some of its examinations for speedy completion of work. The Commission also modified the method of setting the question papers for Group I Services examination with a view to making it more comprehensive. It also decided to extend the objective type examination for the subject 'General Knowledge' to some more examinations.

SECTION XI—STATUTORY RULES AND REGULATIONS, ETC.

(i) PROMULGATION AND AMENDMENTS.

During the period under report, there were 478 cases of issue of Statutory Rules, or amendments to them by the Government. In respect of 282 of them, the Commission was consulted before the rules were issued. Of the remaining 196 cases, 98 were of a routine nature. Excluding such routine ones, there were 98 cases in which the Commission was not consulted. However, those cases related to either to posts excluded from the purview of the Commission or to matters in respect of which under Article 320 (3) of the Constitution of India, consultation with the Commission is not necessary.

(ii) RELAXATION.

During the period under report, there were 1,702 cases in which Statutory Rules were relaxed by the Government. According to the particulars so far furnished by the Government, orders of relaxation were issued in 6 cases in respect of the provisions of the Fundamental Rules, Tamil Nadu Special Pay and Allowances Rules and the Tamil Nadu Travelling Allowance Rules, and in 28 cases in respect of the provisions of the Contributory Provident Fund (Madras) and General Provident Fund Rules.

(iii) TEMPORARY APPOINTMENTS.

(1) *State Services.*

The Commission accorded its concurrence for the continuance of the temporary appointments beyond 3 months in 879 cases, beyond one year in 509 cases and beyond 18 months and above in 662 cases in the State Services for the year ending 31st March 1978.

(2) *Subordinate Services.*

During 1977–78, there were 1,058 cases in which the Commission ratified the continuance beyond three months of the temporary appointments relating to Subordinate Services made by the appointing authorities in the various departments of the Government.

In a large number of cases, the appointing authorities failed to obtain the concurrence of the Commission sufficiently early before the expiry of three months period as required by paragraph 2 of G.O. Ms. No. 4021, Public (Services), dated 9th January 1943. The attention of the appointing authorities concerned was again drawn to the Government Order.

In 392 cases, the Commission ratified the continuance of the temporary appointments relating to Subordinate Services beyond a total *period of one year* with reference to Regulation 17 (2) of the Tamil Nadu Public Service Commission, Regulations, 1954. In some cases, it was found that the appointing authorities concerned did not obtain the Commission's concurrence for the continuance of the temporary appointments beyond three months, but applied for the Commission's concurrence after the temporary appointments had been continued beyond a year.

There were 128 cases in which the Commission ratified the continuance of the temporary appointments beyond eighteen months. There were 34 cases in which the Commission ratified the continuance of the temporary appointments beyond twenty four months. The Commission also ratified the continuance of the temporary appointments beyond thirty months and further periods in 15 cases.

There were 24 cases in which the Government ratified the action of the appointing authorities in having appointed unqualified candidates in contravention of the Government Orders.

(3) *Ministerial Services.*

Concurrence given under the provisions of the Special Rules.

The Commission accorded its consent under the provision to Rule 20 (*a*) (iii) of the Special Rules for the Tamil Nadu Ministerial Service for the permanent transfer of 184 personnel from one departmental unit to another departmental unit in the Tamil Nadu Ministerial Service.

(iv) APPOINTMENTS MADE UNDER REGULATION 16(B) OF THE TAMIL NADU PUBLIC SERVICE COMMISSION REGULATIONS, 1954.

In the following cases, the Commission's concurrence was sought for and given under the latter part of Regulation 16(b) of the Tamil Nadu Public Service Commission Regulations, 1954 for making appointments to the posts without the ordinary statutory reference to the Commission required under Article 320(3) of the Constitution of India :—

SECTION XII—APPEALS AND PROPOSALS FOR DISCIPLINARY ACTION.

The Commission advised the Government on 93 appeals, 42 petitions, including Review petitions, 53 other cases relating to disciplinary action, 2 cases relating to reimbursement of costs of defence incurred by public servants, one reference relating to grant of extraordinary pension including injury pension and 11 cases relating to alteration of date of birth (as against 92 appeals, 102 petitions, 61 other cases relating to disciplinary action, one case relating to reimbursement of cost of defence incurred by public servant, 4 references relating to grant of extraordinary pension including injury pension and one case relating to alteration of date of birth in the previous year).

SECTION XIII—DROPPING OF SELECTION.

(1) At the instance of the Director of Technical Education, Madras, the Commission invited applications for three appointments to the post

of School Assistant in the following subjects in the Government Technical High Schools in the Tamil Nadu Educational Subordinate Service to be made by direct recruitment, in its notification, dated 25th February 1977 with 29th April 1977 as the last date for the receipt of applications in its office :—

Subject.	*Number of appointments.*
(1)	(2)
1. Mathematics	1
2. Humanities	1
3. Science	1

In response to the Commission's notification, applications were received from 252 candidates. After scrutiny of the applications, the Commission proposed to summon the qualified candidates to the oral test. At that time, the Director of Technical Education reported to the Commission that consequent on the introduction of 10+2+3 pattern of education in the State, the position of the Technical High Schools in the Technical Education Department was to be decided and that the Commission need not proceed with the selection of candidates for regular appointments to the post of School Assistant in the Technical High Schools. Accepting the proposal of the Director, the selection for the post of School Assistant in the Technical High Schools in the Tamil Nadu Educational Subordinate Service was dropped and the fees were refunded to the candidates whose applications were admitted by the Commission provisionally A press release to this effect was issued in "The Hindu", dated 25th December 1977.

At the instance of the Director of Industries and Commerce, Madras, one vacancy in the post of Instructor for Palmleaf and Allied Products in the Tamil Nadu Industries Subordinate Service was advertised in 1974 for direct recruitment. In response to the Commission's notification inviting applications for recruitment to the post, applications were received from 12 candidates of whom only one candidate was *prima facie* qualified. The candidate was summoned for the oral test held on 24th February 1975 with the assistance of the Project Officer, Rural Industries Project and she was selected for the post. The name and other particulars of the selected candidates were communicated to the Director of Industries and Commerce, Madras on 7th June 1975. The certificate of physical fitness was called for from the candidate and the candidate was found to be physically fit. The certificate was

forwarded to the Director of Industries and Commerce, Madras and he was requested to appoint the candidate on regular basis. The Director of Industries and Commerce had stated that the Palmleaf Training Centres were transferred to the Tamil Nadu Handicrafts Development Corporation Limited from 1st November 1974 and that there was no need to fill up the post of Instructor for Palmleaf in the Industries and Commerce Department. The Director of Industries and Commerce had, therefore requested the Commission to cancel the selection already made. The Commission explained the position to the Government in the Industries Department and stated that if the selection of the candidate had to be cancelled after having gone through all the process of selection, it would be unfair to the candidate as she would not have sought employment elsewhere pinning her hope on her selection by the Commission and requested the Government to give suitable instructions to the Director to take steps to appoint the candidate. The Government stated in November 1977 that the Director of Industries and Commerce had stated that the Chairman and Managing Director, Tamil Nadu Handicrafts Development Corporation Limited, who was requested to state whether the candidate selected by the Commission for appointment as Instructor could be accommodated in the Corporation had informed that there were no vacancies and hence, it would not be possible to accommodate the candidate. In view of this, the Government requested the Commission to cancel the selection of the candidate. The Commission had no other go except to cancel the selection and refund the fee paid by the candidate. The posts and training centres were said to have been transferred to the Tamil Nadu Handicrafts Corporation Limited in November 1974. The interview for the post was held only in February 1975. Had the Director intimated the position soon after the posts were transferred to the Corporation or at least at the time of interview of the candidate, the unhappy situation of not providing the job for a regularly selected candidate could have been avoided. The Government realised this and requested the Director to take action against the persons responsible for having failed to keep the Commission informed about the transfer of the post to the Tamil Nadu Handicrafts Corporation. The Commission expresses the hope that such a situation will not recur in future.

SECTION XIV—GOVERNMENT AND THE COMMISSION.

(A) Instances of deviation from the Commission's advice.

(1) In April 1976, the Government sought the Commission's advise on the appeal preferred by a former Inspector of the Hindu Religious and Charitable Endowments (Admn.) Department against the orders of the Commissioner of that Department, reverting him to the post of Assistant for a period of three years. The Inspector was deputed for Special duty at Arulmigu Brahatheeswarar Temple, Kangaikonad Solapuram for the festival of Sani-Peyarchi. During the audit

it was noticed that in the tickets printed for issue of sale for Archana tickets numbers had been pasted with bits of paper in certain tickets, that some of the tickets had not been numbered and that the tickets had not been numbered continuously but were numbered 1 to 100 in each book, with the result it could not be deciphered to which book the tickets related. The Inspector, who signed the ticket books in the first and last pages, failed to notice the omission. The Inspector was, therefore charge sheeted for the said irregularities and for having delayed the submission of property return as required in rule 7(3) of the Government Servant Conduct Rules, 1973. The Commissioner, who initiated disciplinary proceedings, held the charges proved and passed orders reducing the Inspector to the cadre of Assistant for a period of three years. When an appeal against the above order of the Commissioner was referred to the Commission, it considered that, as the appellant had put in more than 14 years of service and as he had drawn only 2 increments in the time-scale of pay of the post of Inspector, the punishment of reduction to the category of " Assistant" for a period of 3 years imposed on the Inspector was rather severe. It therefore, advised that the order of the Commissioner, Hindu Religious and Charitable Endowments (Admn.) Department, reducing the Inspector as Assistant for a period of three years, be modified as reduction to the post of Assistant for a period of one year. The Government instead of accepting the Commission's advice, passed orders to the effect that the orders of the Commissioner, Hindu Religious and Charitable Endowments (Admn.) Department, Madras reducing the Inspector as Assistant for a period of three years shall stand. The reason adduced for the deviation from the Commission's advice is that the irregularities committed by the Inspector were serious. The well-established convention is that the Commission's advice should be accepted in all cases, except where matters of policy are involved or where imperative reasons exist for not accepting the Commission's advice. In the instant case, neither matters of policy nor imperative reasons existed for deviating from the Commission's advice and yet the Government have chosen to deviate from the Commission's advice overlooking the established convention.

(2) In January 1975, the Government in the Social Welfare Department requested the Commission to select two candidates by direct recruitment for appointment as Full-time Secretaries to the District Soldiers, Sailors' and Airmen's Board in the Tamil Nadu General Service from among Ex-Commissioned Officers of the Army or Navy or Air Force or from among the Commissioned Officers of the Armed Forces. The posts were advertised by the Commission in accordance with the exis-

ting Adhoc rules. The qualifications prescribed for the above post were as follows :—

(i) that, on the date of his application, the applicant possesses a degree of any University or Institution recognised by the University Grants Commission for the purpose of its grant;

(ii) that on 1st July 1975 he will not complete the age of 45 years (i.e., he was born on or after 2nd July 1930).

In response to the Commission's notification inviting applications for recruitment to the post, applications were received from 23 candidates of whom two were primafacie qualified. Those two candidates were summoned for the oral test and they were provisionally selected. The names and other particulars of the two candidates were communicated to Government. The certificate of physical fitness was called for from one of the selected candidates and he was found to be physically fit. The certificate was forwarded to the Government. In respect of the other candidate, the Government were requested to relax the rule 2 (14) of the General Rules (Part I) for the Tamil Nadu State and Subordinate Services in his favour and they were also informed that the certificate of physical fitness would be called for from him as and when the orders of relaxation were received. The Government were reminded for the relaxation of the relevant rule in favour of the above candidate periodically. In August, 1976 the Government stated that they had decided to fill up the post of full-time Secretaries in the District Soldiers, Sailors and Airmen's Board by competent and experienced retired Majors on a tenure basis after calling for a panel from the Director General of Resettlement and on the recommendation of the Special Committee to be constituted for the purpose, which would include a nominee of the Commission also and they requested the Commission to accept their proposal as a special case. The Government did not state any reason either for their new proposal or for dropping the selection made by the Commission. The Commission in reply informed the Government that the selection made by it was fair and proper and that it did not find any reason to agree with the Governments suggestion to drop the selection of the two candidates after the selection was made and after one of the candidate was informed of his selection. The Commission also regretted its inability to agree to the Government's proposal to form a special selection Committee to make recruitment to the above post.

In May, 1977, the Government stated that the expenditure on the maintenance of the District Soldier's Sailors' and Airmen's Board was shared by the Union and the State Government on 50 : 50 basis and that the Director General, Resettlement, Government of India, Ministery of Defence had been insisting on the Government of Tamil Nadu for quite some time that only senior retired service officers who had long experience of the Defence Services, knew their tradition and understood the needs

and difficulties of the released personnel, should be considered for appointment to the above post. Further at the meeting held in April 1976, the Kendriya Sainik Board, New Delhi, the question of appointment of Secretaries, Rajya/Zila Sainik Boards was discussed and it was suggested that the Secretaries of the above Boards should be specially selected from Senior retired officers from the Armed Forces for the reason such officers would be matured and would have to their credit long service in the Armed Forces and experience with the various assignments including handling of troops, etc. In view of this, the Government decided that only officers who had held permanent Commission in the Services and had retired in the normal course or been boarded out for war injuries, etc., should alone be selected for appointment to the above post.

The Government have issued the following instructions in their U.O. Note No. 2223/50-4, dated 8th August 1950:—

"Under Clause(1) articles 320 of the Constitution of India, it is the duty of the State Public Service Commission to conduct examinations for appointments to the Services of the State. In cases calling for direct recruitment to the State and Subordinate Services made by examinations through the agency of the Commission, that body acts in pursuance of the above clause and report the results to the Government who make appointments according to those results".

With reference to Article 320(1) of the Constitution of India and the instructions issued by the Government in their U.O. note above, the Commission selected two suitable candidates for appointment to the post of full time secretaries in the District Soldiers', Sailor's and Airmen's Board in the Tamil Nadu General Service with reference to the Adhoc Rules then in force and communicated the list to Government. One of the selected candidate was informed of his selection and in respect of the other the Government were requested to relax rule 2(14) of the General Rules for the Tamil Nadu State and Subordinate Services. But the Government declined to appoint those two candidates for the reasons that the services rendered by them in the Armed Forces were very short and that the candidates would not be suitable for the assignments and dropped the selection. The action of the Government is not appointing the two candidates selected by the Commission to the post of full-time Secretaries to the District Soldiers, Sailors' and Airmen's Board in the Tamil Nadu General Service, would be opposed to the letter and spirit of the Constitution and also to the instructions issued by the Government themselves.

The Government's decision to drop the selection made by the Commission with reference to the rules then in force and after the candidates were informed of their selection is a sad phenomenon entailing an unhealthy violation of the established convention of accepting the recommendations of the Commission unless they relate to matters of policy or imperative reasons exist therefor.

The Commission would like to observe with regret that due regard was not given to its recommendation.

(3) The Government, in October, 1976, asked for the Commission's views on their proposal to constitute a committee, consisting of the Chairman or a member of the Tamil Nadu Public Service Commission as its Chairman, the Departmental Secretary and the Head of the Department as its members, to interview the temporary personnel, who had put in more than 5 years of service (3 years or more in the case of physically handicapped) under the State Government and to select the deserving candidates, with reference to certain pre determined norms for regular appointment in the State Government. The Commission, however, agreed to conduct only a special recruitment subject to the condition that the proposed selection must be on the basis of the written examination to be conducted by it and not on the basis of the interview by a special committee. In April, 1977, the Government approached the Commission with the proposal that all Junior Assistants, Steno-typists and Typists who had put in one year of service either continuously or with breaks as on 31st March 1977 whether, in service on that date or if not in service on that date, had been retrenched on or after 1st April 1974, might be made eligible for the selection to be held by the Tamil Nadu Public Service Commission. The Commission pointed out to the Government that their proposal to confine the recruitment to temporary personnel, who had put in one year service while thousands of unemployed candidates some of whom might be better qualified and were eagerly awaiting an opportunity to get recruited, would be against justice, equity and fairplay. The Commission also pointed out that temporary employees are recruited through the Employment Exchange concerned which can sponsor only the candidate's registered with them shutting out candidates registered with other Exchanges all over the State. To cite an example, the temporary employees in the Secretariat could have been recruited only through the Employment Exchnage at Madras when all qualified persons spread over the entire State of Tamil Nadu are eligible to serve in the Secretariat. Hence, the proposal is also against the principle of equality of opportunity enshrined in the

Constitution. The Commission therefore reiterated its earlier stand that the Special qualifying Examination might be confined to the candidates who had put in a service of 5 years or more and that candidates with a service of less than 5 years might be required to compete in the normal course along with others. The Government, in May, 1977, proposed that the Special Qualifying Examination need not be thrown open to those who had put in one year of service, but confined to those who had put in a service of two years and more. The Commission with great reluctance agreed to hold a Special Qualifying Examination for persons who had put in temporary service for a period of not less than 3 years as on 31st March 1977, instead of 2 years as proposed by the Government. The Government went back on their proposal in utter disregard of the suggestion of the Commission and ordered in G.O. Ms. No. 781, Personnel and Administrative Reforms (Personnel-M.), dated 28th June 1977, that all the temporary employees in the common categories of Junior Assistant, Typists and Steno-typists who had put in not less than one yaer of service as on 31st March 1977 might be absorbed on a regular basis, if they came out successful in a Special Qualifying Examination to be held by the Commission. The Government could have issued orders straightway without consulting the Commission as a matter of policy, but, after having sought for and obtained the Commission's views on their proposal, the Commission is unable to see any justification in the issue of orders by the Government contrary to their own proposal.

Effective steps to prevent such large backlogs were also not indicated by the Government. The Commission expresses the hope that the Government would take serious notice of their departments' failure to provide correct estimates of vacancies to the Commission.

(B) NON CONSULTATION WITH THE COMMISSION IN REGARD TO APPOINTMENTS RULES, REGULATIONS AND DISCIPLINARY ACTION.

(1) In February, 1976, the Government forwarded draft Adhoc rules for the temporary post of Accounts Officer in the Directorate of Rehabilitation, Madras and sought the views of the Commission on them. The Commission's views on the draft Adhoc rules were communicated to the Government in June 1976. In the draft adhoc rules, the temporary post was proposed to be constituted as a separate category under Class II of the Tamil Nadu State Treasury and Accounts Service. But in the Adhoc rules issued, the temporary post has been constituted as a separate category in Class III of the Tamil Nadu State Treasury and Accounts Service. The scale of pay specified in the issued rules is less than that proposed in the draft rules. It was, therefore, presumed that the temporary post was down graded to that of Class III Officers

from that of Class II Officers of the Tamil Nadu State Treasury and Accounts Service. Since the temporary post is within the Commission's purview, the Commission should have been consulted before the Adhoc rules were modified and issued by the Government. As this was not done, the Government were requested to state the circumstances, under which the Commission was not consulted before the Adhoc rules were modified and issued by the Government without consulting the Commission. In reply, the Government stated that, after the receipt of the remarks of the Commission on the proposed adhoc rules, when the file was sent to Finance Department, it was pointed out that for similar posts in the Officers of other Heads of Departments only Class III Officers of the Tamil Nadu State Treasury and Accounts Service were posted as Accounts Officers and hence the post of the Accounts Officers in the Office of the Director of Rehabilitation might be of the same grade and that this was accepted and orders issued accordingly without consulting the Commission again. The Government have further stated that the omission to consult the Commission again in regard to the revision in the draft adhoc rules was due to inadvertance.

(2) The temporary posts of Full-time Secretary to the Committee for the administration of the Amalgamated Tamil Nadu Shares of Post War Services Reconstruction Fund and the Special Fund for Reconstruction and Rehabilitation of Ex-Servicemen and the Full-time Secretary, District Soldiers', Sailors and Airmen's Board, which were subsequently redesignated as Deputy Director and Secretary, Amalgamated Funds and Assistant Director of Ex-Servicemen's Welfare respectively were within the Commission's purview. The Government, in June 1977, ordered that the said posts should be kept outside the purview of the Commission with a view to implementing the recommendation of the Kendriya Sainik Board according to which the selection of candidates for appointment to the said posts should be made on the basis of a panel of names obtained from the Director-General of Resettlement who has access to the past records of the services officials. The orders excluding the posts from the Commission's purview were issued without consulting the Commission. As the posts were within the Commission's purview, the Commission should have been consulted before excluding the post from its purview as required by the instructions issued in the Government U.O. Note No. 6292/66-15, Public (Services-A), dated 27th October 1968. The Government were requested to state the circumstances under which the Commission was not consulted before those orders were issued. In reply to this the Government stated that they had already sought the concurrence of the Commission for the exclusion of the above posts and that therefore there was no need to consult the Commission again.

In June, 1975 the Government sought the Commission's concurrence for exclusion of the temporary posts of Full-time Secretary to the Committee for Amalgamated Funds (Subsequently redesignated as Deputy Director and Secretary). The Commission in October, 1975 regretted its inability for exclusion of the post from its purview The Government accepting the Commission's views stated that the post need not be excluded from the Commission's purview. In April, 1978 the Government requested the Commission to advertise the vacancy in the post. At their instance the Commission advertised the post and selected a candidate. The selected candidate was also appointed to the said post. However in June, 1977 the Government of their own accord excluded the post from the Commission's purview Once the matter was closed by the Government agreeing with the Commission's views the Commission should have been consulted again before the Government went back on their own decision and passed fresh orders. Any new developments might have been placed before the Commission to consider the question afresh. Therefore the Commission feels that the statement of the Government that the Commission was already consulted cannot be a justifiable excuse for not consulting the Commission when they re-opened the case and passed orders reversing their own earlier decision and thereby violated their own instructions in this matter.

(3) In G.O. Ms. No. 1631, Finance (Treasuries and Accounts), dated 27th December 1973, the Government issued an amendment to rule 4 of the Special Rules for the Tamil Nadu Treasury and Accounts Service. The Commission was not consulted before the amendment was issued. According to the amendment issued in that G.O. candidates for appointment to the posts in Classes I and II of the said service must, in addition to approved probationers, have put in a minimum service of one year as Treasury Officer. According to the proviso added to the said amendment, this qualification shall not be insisted upon for a period of two years from the date of issue of the G O. in the case of seniors, who are likely to be promoted to Class II. As the posts included in the said service are within the Commission's purview, the Commission should have been consulted before the amendment in the G.O. was issued as required under Article 320 (3) of the Constitution of India on all matters relating to methods of recruitment or on pricniples to be followed in making appointments or promotion or transfer from one service to another. This was pointed out to the Government in the Finance Department in February, 1974 and they were asked to state the circumstances under which the Commission was not consulted before the amendment in the said G.O. was issued. The Government in the Finance Department issued two more G.Os. subsequently amending the said special rules for the Tamil Nadu Treasury and Accounts Service

without consulting the Commission [G.O. Ms. No. 1089, Finance (T & A), dated 6th August 1974 and G.O. Ms. No. 1185, Finance (T & A), dated 3rd September 1924]. The amendments, in the G.Os. referred to above were also issued without consulting the Commission. The omission to consult the Commission in respect of these amendments was also pointed to the Government in November, 1974. The Government stated that the Commission should have been consulted before the amendments were issued but it was not done so and that it was an omsision. The Commission is of the view that the instructions in this regard should be strictly followed by all the Departments of the Secretariat.

(4) In G.O. Ms. No. 1244, Commercial Taxes and Religious Endowments, dated 24th October 1975, the Government passed orders to the effect that the Non-Graduate Executive Officers also be appointed as Assistant Commissioners in the Hindu Religious and Charitable Endowments (Administration) Department, with reference to the request of the Tamil Nadu Temple Executive Officers Federation. The Commission was not consulted before the orders were passed in the matter According to the instructions issued in the Government's U·O. Note No. 4020/54-2, Public (Services), dated 11th September 1954, the Commission should be consulted before arriving at a decision affecting the method of appointment or qualifications prescribed for appointment to a post which is within the Commission's purview and not at the stage of framing *adhoc* rules or amendment to rules. As appointment of an Executive Officer as Assistant Commisisoner is a case of recruitment by transfer from a subordinate Service to a State service, consultation with the Commission is necessary for such appointment and the Commission should have been consulted before taking a decision in the matter of changing the qualification for appointment to the post. As the Commission was not consulted in the matter, the Government were requested to state the Circumstances under which the Commission was not consulted before the issue of the orders. The Government stated that the orders were issued in pursuance of the announcement made by the former Minister for Religious Endowments in the Legislative Assembly that the Government would accept in principle to appoint non-graduate Executive Officers as Assistant Commissoner. It, was however, stated by the Government that the Commission would be consulted before amending the special rules in this regard. The Government could have informed the Commission about the announcement in the Assembly by the former Miniser for Religious Endowments and got its concurrence before issuing the orders and thereby could have avoided violation of their own instructions in the matter.

(5) In G.O. Ms. No. 1781, Education, dated 1st August 1977, adhoc rules for the temporary post of Gazetted Personal Assistant to the Director of National Cadet Corps (Tamil Nadu and Pondicherry) were

issued without consulting the Commission. Since the temporary post being a gazetted one, is within the Commission's purview, the Commission should have been consulted before the adhoc rules for the said post were issued. This was not done. When the Government were requested by the Commission to state the circumstances under which it was not consulted before the adhoc rules were issued, they stated that due to over-sight, the Commission was not consulted before the rules were issued, and regretted for the omission to consult the Commission.

(6) In G. O. Ms. No. 1519, Education (T1), dated 16th July 1976 certain amendments were issued to the *adhoc* rules for the temporary post of Tamil Pandit, Grade I in the Directorate of Tamil Development, Madras changing the method of appointment prescribed for the post, without consulting the Commission. As the temporary post of Tamil Pandit, Grade I was within the Commission's purview, the Government were requested to state the circumstances under which the Commission was not consulted before the amendments to *adhoc* rules referred to above were issued. The Government replied that failure to consult the Commission was an omission and regretted the same. The Commission trusts that such omissions will not recur.

(7) In G. O. Ms. No. 1137, Industries, dated 3rd October 1977 amendments to the Special Rules for the Tamil Nadu Industries Subordinate Service were issued, consequent on the permanent retention of the temporary post of Survey and Statistical Inspector in the Statistical Sections of the Department of Industries and Commerce. In the amendments issued, the method of appointment and the qualification prescribed for the post in the *adhoc* rules issued in G.O. Ms. No. 6716, I.L.C., dated 28th November 1961, as subsequently amended, were modified. As the said post was within the Commission's purview, the Government in the Industries Department, were requested to state the circumstances under which the Commission was not consulted before the amendments to the Special Rules, involving modifications in the method of recruitment and qualification for the post, were issued. In reply, the Government stated that the basic educational qualification was not altered and that only two posts (viz) Accountant and Assistant (Store-Keeper) were newly added as feeder categories for the post in question. The Government also stated that direct recruitment was not one of the methods of appointment prescribed for the post and that the Commission was not also consulted, when *adhoc* rules for the post were first issued in 1961. The said post was not within the Commission's purview when the *adhoc* rules were framed for the post, but fell within the Commission's purview only when all the non-gazetted posts in the Tamil Nadu Industries Subordinate Service carrying a starting pay

higher than Rs. 125 p.m. except those mentioned in the Regulations, were brought within the Commission's purview on 25th February 1970. Though direct recruitment was not one of the methods of appointment prescribed for the post and the Commission need not be consulted for making appointment to the posts as however, the post was within the Commission's purview, the Commission should have been consulted, under Article 320(3) of the Constitution of India, before issuing amendments to the Special Rules, modifying the method of appointment and qualification.

The Commission pointed out to the Government that the amendments referred to above issued without consulting the Commission is a clear case of violation of the mandatory provision to consult the Commission on all matters relating to methods of recruitment to Civil Services and Civil Posts as required in Article 320(3) (a) of the Constitution of India. The Commission trusts that the Government will avoid such omissions in future.

(8) In April, 1977, the Government proposed to bring the following non-gazetted technical posts in the Institute of Film Technology and Tamil Nadu Films Division, Madras within the Commission's purview and asked for the Commission's views on that proposal :—

Posts.		*Scale of Pay.*
ISTITUTE OF FILM TECHNOLOGY, ADYAR, MADRAS-20.		
1. Room Assistant	..	Rs. 300—10—350—15—500.
2. Supervisors	..	Rs. 300—10—350—15—500.
3. Projectionists	..	Rs. 300—10—350—15—500.
4. Laboratory Assistant	..	Rs. 225—5—250—10—350.
TAMIL NADU FILMS DIVISION, ADYAR, MADRAS-20.		
1. Projectionist	..	Rs. 300—10—350—15—500.
2. Production Assistant	..	Rs. 250—10—300—15—450.
3. Laboratory Assistant	..	Rs. 225—5—250—10—350.
4. Technical Assistant-*cum*-Driver		Rs. 225—5—250—10—350.

The Commission agreed to the proposal to bring the posts within its purview. In October, 1977, the Government stated that on reconsideration, they have decided that the posts need not be brought within the Commission's purview and that the posts might continue to be kept outside the Commission's purview The Government gave no reason for going back on their own proposal The Commission expresses its disappointment on the Government's action in dropping the proposal after the Commission's consent was obtained by them and without assigning any reason therefor.

(9) In G. O. Ms. No. 1262, Rural Development and Local Administration, dated 29th June 1976 the Government issued certain amendments to the Special and *adhoc* rules for the Tamil Nadu Town Planning Subordinate Service modifying the method of appointment and qualification for appointment to the posts of Planning Assistant (Special), Planning Assistant, Architectural Assistant (Special) and Architectural Assistant. Under Article 320(3) of the Constitutions of India, the Commission should have been consulted before the amendments were issued as they relate to the principles to be followed in making appointment to these posts The Government were, therefore, requested to state the circumstances under which the Commission was not consulted before the amendments were issued. In reply, the Government stated that the Commission was inadvertantly omitted to be consulted.

ACKNOWLEDGMENT.

The Commission records its appreciation of the willing co-operation extended by various Trusts, Educational Institutions and their officers in the matter of providing suitable accommodation for the various examinations held by the Commission.

The Commission is also grateful to the examiners and expert advisers, who in spite of their personal inconvenience, readily accepted the Commission's invitations and assisted it in the conduct of different examinations and selections of officers to the various posts under the State Government.

Finally the Commission places on record, its appreciation of the loyal and efficient service rendered by its staff throughout the year.

APPENDIX B.

REPORTS FROM EXAMINERS AND EXPERTS.

[*Vide* item (ii) of (A) under Sections V and VI.]

GROUP I SERVICES EXAMINATION—APRIL 1976.

English Composition.

Most of the examinees did not have command over language. Their presentation and expression of ideas was very poor. There was a tendency on the part of the candidates to present as precis a jumble of sentences taken from the given passage itself. Even the candidates who grasped the meaning of the passage were not able to present the main ideas in a coherent manner. Quite a large number of them had exceeded the limit prescribed for the precis. In the essays one noted a poor grasp of current affairs among the candidates. The essays tended to become repetitive. There was no logical development of ideas. There were idiomatic and spelling errors. Most of the candidates did not grasp the meaning of the words and idioms. The sentences framed by candidates failed to bring out the meaning of the words clearly. On the whole, the general performance of the candidates was disappointing.

General Knowledge.

Most of the candidates had done well with regard to questions based on History and International affairs. But there were marked failures in questions connected with Physics and Chemistry. There was solid empirical support for the thesis that the majority of the candidates did not possess regular reading habits and did not take any interest in the exciting developments and events of recent days. On the whole, the performance of the candidates was above average.

English.

(i) History of English Language and Literature.
(ii) Shakespeare.
(iii) History of English Language and Chaucer.

Many of the candidates did not know how to express themselves in the English Language. The general tendency seems to be to exhibit more the width of the subject than its depth. Lack of proper subject matter and factual errors account for low grades. The performance in general was disappointing.

Tamil—Tamil Language and Literature.—The candidates handwriting left much to be derived. They committed spelling mistakes and answered badly the Language Portion of the question paper. Some did not understand the meaning of the words 'Sangam Literature', 'The later Chola period' and 'Jains'. On the whole, performance of the candidates was anything but satisfactory. Even the elementary ideas about Tamil Language and Literature were either misinterpreted or not understood at all.

Tamil—Linguistics.—Though a number of candidates had started well they had not given complete answers to certain questions. They had little idea of the linguistics of Tamil Language in particular. On the whole, the performance of the candidates was not satisfactory.

Tamil—History of South India.—Most of the candidates had not given the historical dates which are of important once. Generally the answers lacked brevity and clarity. The performance of the candidates on the whole was average.

Tamil—Tamil Nadu and Culture.—The answers were in the nature of story narration. Candidates had seldom quoted from Tamil Classics. In general many candidates had written the answers based not on a deep study of the Text books but of the printed notes. The answers were generally satisfactory.

Tamil—Literary Criticism.—A majority of the candidates had exhibited their poor knowledge. They do not seem to have read the books on literary criticism in Tamil. On the whole, the performance can be said to be satisfactory.

Tamil—Comparative Philology of Dravidian Languages.—No candidate had a clear idea about or was familiar with the similarities or dissimilarities among the Dravidian Languages. The answers on the whole were far from satisfactory.

Telugu.

(i) Language and Literature.

(ii) History of Telugu Literature and Comparative Philology of Dravidian Languages.

(iii) History of Telugu Literature and Literary Criticism.

The candidates had shown an inability to distinguish between a question on language as such and a question on literature.

.he candidates had neglected technical subjects like language, lology, criticism and they had a tendency to answer the questions as ›ugh they pertained to literature. The performance was found to ; poor.

Malayalam.

(i) Language and Literature.

(ii) History of Kerala Culture and Inscriptions.

(iii) Literary Criticism.

The performance of the candidates was just average. There was none to reach the desired standard of attainments.

Urdu.

(i) Language and Literature.

(ii) History of Urdu Language and Literature.

(iii) Literary Criticism.

There were mistakes of grammer and spelling. Some of them gave lengthy answers which lacked quality. Even then, the general standard of performance was better than that of the University Examination candidates.

Hindi.

(i) Language and Literature.

(ii) Indian History and Culture.

The performance was fair.

Sanskrit.

(i) Language and Literature.

(ii) Indian History and Culture.

The performance was satisfactory.

Indian History.—Most of the candidates did not take the examination seriously and their answers mirrored poor mental calibre. They did not possess proper and intelligent understanding of the subject. The absence

of quality and depth showed their inadequate preparation. The expression of the candidates answering questions in the Tamil Med equalled that of their counterparts answering questions in the Eng medium. The performance was deplorably poor.

History of Europe.—The candidates answering in the Tamil Madium had done better than those who had answered in the English medium. Apart from factual mistakes, the scripts revealed very poor grammer. Sometimes the entire question was misunderstood and totally wrong answers given. In general the performance was not good.

Constitutional History of England.—The performance of a majority of the candidates was above average.

Politics.—The impression gained was that a majority of the candidates had opted for this paper perhaps without studying Political Science (Major) in the B.A. or M.A. courses. The general performance was not satisfactory.

Economics.—A number of candidates had not prepared well for the examination. Some candidates had not even understood the questions and had not kept themselves abreast of the latest developments in Economics. The candidates who answered the questions in English had done better. On the whole, the performance was satisfactory.

Philosophy.—The performance of the candidates in general was quite good.

Psychology.—The general performance was very satisfactory.

Mathematics (Pure and Applied).—The performance was very poor in both the papers, poorer in Pure Mathematics.

Statistics.—The paper was not a tough one and a moderate preparation was enough to answer satisfactorily. But many of the candidates had not prepared well and betrayed their lack of proper background in the subjects. A majority seem to have Economics background. On the whole, the performance was not upto the standard.

Physics.—A large number of candidates seem to be of B.Sc. standard. On the whole the performance was deplorably poor.

Chemistry.—The candidates answers lacked in depth of knowledge and mode of presentation of the answers was below the Bachelor's degree standard. On the whole the performance was poor barring a few exceptions.

Botany:—There were cases in which answers were neither specific nor complete. Some candidates had answered without a proper understanding of the questions. Only one fourth of the candidates secured 35% and above. In general the performance was very poor.

Zoology.—Most of the candidates had presented only imperfect, absurd and ambiguous answers which the Master's Degree holders could ill-afford. The standard was not up to the mark. In general the performance was very poor.

Geology.—The performance of the candidates was well above average.

Hindu Law.—The absence of competitive spirit was manifest. The answers were generally vague and showed lack of preparation. The answers were generally lengthy and were not directed to the questions. English was poor. Grammar was a casualty. The performance was not satisfactory.

Indian Constitutional Law.—The general performance of the candidates was poor. Most of the candidates had taken the examination in a light hearted manner.

Advanced Currency and Banking.—The performance of the candidates in Accounts and Audit was far from satisfactory and in most of the cases it did not come upto the standard. The general perfor mance was very fair.

Accounts and Audit.—Lack of expression in answering descriptive questions in Auditing and ignorance of principles of Accounts in tackling problems in Accounts were found in almost all the papers. The standard was not upto the mark.

Contracts including Mercantile Law.—Most of the candidates did not have either the knowledge of Law or the power of expression. The general performance was very poor.

Sociology.—The performance on the whole was average. The answers were general in nature and were not of Post-Graduate level.

Community Development.—The performance of the candidates who opted to answer in Tamil was better than that of the candidates who answered in English. The performance was not bad.

Public Administration.—The performance on the whole was up to the standard.

Social Science.—The performance was above average.

Geography.—The answers written in Tamil were better than those in English. Generally, the performance of the candidates was not up to the standard.

GROUP VIII SERVICES—1976.

EXECUTIVE OFFICER, GRADE IV IN THE TAMIL NADU HINDU RELIGIOUS AND CHARITABLE ENDOWMENTS SUBORDINATE SERVICE.

English Composition.—Quite a few candidates could not adequately express their thoughts in English. Inspite of this the performance of some candidates was highly satisfactory. The performance of the rest was unsatisfactory.

General Knowledge.—The general performance of the candidates was found to be good.

'இந்துமத இணைப்பு விளக்கம்' TREATIES ON VAISHNAVAM AND SAIVAM. The performance was not upto the mark. Their knowledge of Hinduism was not upto the level expected of an ordinary person professing Hinduism.

GROUP I-A SERVICES EXAMINATIONS—1976-77.

General Knowledge.—A few of the candidates were found to be above average, most of them just average and a few of them below average.

Essay in English.—Almost none of the candidates had come forward with new ideas or with a different approach. Some of them did not seem to be familiar even with the names of India's neighbours. A tendancy to translate Tamil idioms and Phrases into English had taken deep roots in them Almost all the candidates were capable of giving "Good matters" but they lacked in expression. The performance of the candidates on the whole was satisfactory.

Mathematics (Matriculation Standard).—A few could not write out the proof of the Theorems and a few could not remember the correct formula to be applied. On the whole the candidates did well in Arithmatic and Alzebra portions of the paper.

Botany.—There was not even an attempt at neat presentation Handwriting was poor. Answers were all sub-standard.

Zoology.—Performance in general was of a lower standard than that of the previous.

Mathematics (Degree Standard).—Though the questions were easy, none of the candidates had secured the maximum. The performance of most of them was poor and a few of them was satisfactory.

Chemistry.—The performance of one of the candidates was good and the other was average.

Physics.—The performance on the whole was satisfactory.

Geology.—Only one candidate appeared and his performance was not satisfactory.

Agriculture.—In general the candidates answered the questions to the expectation.

Statistics.—Even the principles of statistics were not understood by the candidates. The performance of the candidates in general was not good.

Civil Engineering.—The performance of the candidate was satisfactory.

Chemical Engineering.—The performance was satisfactory.

SPECIAL QUALIFYING EXAMINATION OF THE DEGREE STANDARD—1977.

English.—The standard of performance was poor. The general essay was badly done and this was mainly because of lack of general information and poor command of language. The precis and the expansion were also below the average standard. The question on letter-writing was fairly well attempted. Students appear to have guessed the answers relating to choice or words and idioms. In the latter case, the meaning of the idiom was not clearly indicated. Candidates invariably failed to keep to the prescribed word-limit or length of answer required.

General Knowledge.—The overall standard of the performance of the candidates in the subject General Knowledge was satisfactory.

GROUP VI SERVICES—FOREST APPRENTICE—1977.

English —Performance of the candidates was satisfactory. They had understood the questions and had gone a step ahead to show that after all they are not new to English Language and Literature.

General Knowledge, Paper I.—The General performance of the candidates was satisfactory.

General Knowledge, Paper II.—The performance of the candidates was satisfactory. The answers in Tamil medium were more impressive than those in English.

Mathematics, Paper I—The candidates have done well in Arithmatic but not so in Algebra and Trignometry However on the whole the standard of the answers was a little above average.

Mathematics, Paper II—The performance of the candidates in the paper was generally good.

Mathematics (Optional) —In general, the performance of the candidates was poor. Some candidates did not exhibit an understanding even of the rudiments of the subjects.

Physics.—On the whole the performance was not satisfactory. The standard of 60 percent of the candidates seemed to be below the Higher Secondary and Pre-University levels.

Chemistry.—Only few had done well. Many candidates were not aware of the fundamental aspects of Chemistry and most of the answers were absurd and irrelevant to the questions.

Botany.—The over all performance of the candidates was very unsatisfactory. The standard was below average.

Zoology —On the whole the performance was far from satisfactory A few candidates who answered in Tamil medium fared much better than expected.

Geology —The performance of the only candidate was good.

GROUP I-A SERVICES EXAMINATIONS—1977 78.

General Knowledge —The performance was satisfactory

Essay in English —The answers of most of the candidates betrayed lack of proper and adequate preparation.

Mathematics (Matric Standard).—The performance of the candidates was not satisfactory. Some of the candidates had not marked the question numbers correctly

Botany.—General performance was just fair. Nearly 50 per cent did not take the examination seriously. Both handwriting and presentation were good Accuracy in drawing, labelling, relating to written matter was rather unsatisfactory.

Mathematics (Degree Standard).—Of the six papers valued, three were extremely poor. Though the performance of the other three was relatively better, it was much below average. Even very simple and direct questions could not be answered by the candidates.

Zoology.—Question about the functions of the nervous system and the chemical Co-ordination had not been touched by any one of the candidates. The handwriting of most of the candidates was illegible. Most of the candidates did not have depth of knowledge in Zoology. Some of the application type of question such as control of pollution, control of maleria and application of genetical principles in animal breeding and agriculture had not been answered well. Scientific inaccuracy had been noticed in the drawing of diagrams.

Physics.—The performance of the candidates was average.

Agriculture.—The performance was satisfactory.

Geology.—The performance of the only candidate was satisfactory.

Chemistry.—Only two candidates had taken the examination. The performance of one above average while that of the other was below standard.
